What's New on HUD-Clips?	15
HUD Issues New Optional Smoke Free Housing Policy	16

NTHDC would like to thank all of the Owners and Agents and HUD staff who attended the NTHDC State Conference on July 20, 2010. The Conference was a huge success and attendance this year was stellar.

NTHDC is pleased to continue to offer these training opportunities free of charge for all of our Owner Agents in Florida and we hope to continue to sponsor training sessions in 2011 as well.

If you missed any of the training opportunities, there are still open seats available at the Orlando Seminar.

The Orlando Seminar will be held at College Park Towers Apartments on November 16, 2010. Please visit www.nthdc.org for more information.

MOR Process Changed by Release of Chapter 6, HUD Handbook 4350.1

With the release of the newly revised Chapter 6, 4350.1, effective August 1, 2010, the way your CA prepares for, performs and scores a Management and Occupancy Review has changed. One of the most important changes directly impacts the scoring of categories on HUD 9834 and the assignment of overall ratings on the management review.

Details on the Desk Review Process

This chapter provides more detail on the actions PBCA's must take during the Desk Review process. It emphasizes that the Desk Review section of form HUD-9834 consists of questions used to prepare the reviewing official for the on-site review and must be completed prior to conducting the on-site review.

It is important to note that some of the questions on the desk review impact the scores given in some categories. Although the questions in Part I, Desk Review, are not rated, *they are used to assist the reviewing official in preparing for the on-site review and can impact the rating if ongoing non-compliance items are identified.*

As part of the Desk Review, the reviewing official will need to review:

The project files—this usually includes the prior year's Management and Occupancy report and follow-up, recent requests for rent adjustments and contract renewals and voucher submissions. Timeliness and accuracy of submissions is noted.

System reports, and other documents and data that pertain to the project under review. Included here may be reports regarding tenant complaints/inquiries recorded by the PBCA in the last twelve months.

The last REAC physical inspection to note the inspection date and any deficiencies

(iREMS) screens to verify the accuracy of the Ownership and Management information.

The iREMS Problem Statement screens to obtain additional background information.

Guidance for the On-Site Review

The newly released Chapter 6 also provides an explanation of required paperwork for the PBCA. The chapter instructs that appropriate sections of Part II, On-site Review must be completed and that *the form should not be provided to the owner/agent for completion prior to or during the on-site review.*

When on-site, for subsidized projects, reviewers must complete:

Addendum A -Tenant File Review Worksheet;

Addendum B - Checklist for On-Site Limited Monitoring and Section 504 Reviews
All reviewing officials should notate "N/A" for questions that are not relevant to the program under review.

Addendum C - Documents To Be Made Available By Owner/Agent.

The on-site review also requires follow-up and monitoring of inspections if deficiencies are noted on the physical inspection report released within the last twelve months and/or if information is available requiring corrective action. the Management Review:

“The most important changes directly impact the scoring of categories on HUD 9834 and the assignment of overall ratings on the management review. .”

MOR Process Changed by Release of Chapter 6, HUD Handbook 4350.1 Cont'd.

Included in the PBCA review are:

A sampling of Exigent, Health, and Safety (EH&S) problems identified in the REAC physical inspection if the report was released within six months prior to the on-site review.

A *sampling of units and common areas* to verify that significant REAC physical inspection report deficiencies (*other than EH&S*)....have been corrected
The lead-based paint certification (if applicable) and noting deficiencies and/or environmental hazards if information is made available requiring corrective action. PBCA's will obtain a copy of this document.

Clarification of Communicating Results/Follow-Up

Once on-site activities are completed, reviewers begin compiling data and write the report. Per Chapter 6, the following requirements impact this process:

If report contains deficiencies, Target Completion Dates may not exceed 30 calendar days. The Government Accounting Office considers the monitoring process to be completed only after identified deficiencies have been corrected, the corrective action produces improvements, and it is determined that no further action is required.

The Chapter has clarified the requirements for appealing Management and Occupancy scores by adding to the chapter the following detail:

"If an owner/agent receives a "Below Average" or "Unsatisfactory" overall rating as indicated on the form HUD-9834, Summary Report, the owner/agent may appeal the rating."

Per the language above, "Below Average" and "Unsatisfactory" category ratings cannot be appealed. Appeal process/timelines have not changed.

Major Changes to the Scoring Process

Note: All of the information that follows is new and substantively changes the process going forward.

Significant changes to this section of the chapter include the addition of new performance indicators based on a numeric construct. As a result, each category is given a number based on the rating (Superior, Above Average, Satisfactory, Below Average and Unsatisfactory) as well as a **weighted factor in the overall score**. The performance indicators/values for categories on the 9834 are as follows:

- Superior (90-100)
- Above Average (80-89)
- Satisfactory (70-79)
- Below Average (60-69)
- Unsatisfactory (59 and Below)

"Below Average" and "Unsatisfactory" category ratings cannot be appealed. "

MOR Process Changed by Release of Chapter 6, HUD Handbook 4350.1 Cont'd.

Each category on HUD 9834 receives a number based on the frequency of findings and the degree of severity. For example, in Leasing and Occupancy, a reviewer may determine that the owner performance is Satisfactory. Based on the number of findings and the impact to overall compliance, a reviewer can then assign a rating between 70-79. This same process holds true for each category.

HUD has added to this chapter clear, complete definitions of each of the ratings above. For full details, please see the complete Chapter 6 of 4350.1 posted at <http://www.hud.gov/offices/adm/hudclips/handbooks/hsg/4350.1/index.cfm>.

Below is a summary of each rating requirement.

Superior Rating:

- Consistent policies and procedures which are highly successful in carrying out the objectives of HUD housing programs
- Owner/agent strictly adheres to procedures, resulting in compliance with the regulatory agreement, subsidy and mortgage contracts, and management certifications;
- The owner/agent is in compliance with HUD's lead-based paint requirements (if applicable);
- The property is in exceptional condition and there are no observable Exigent, Health & Safety (EH&S) or other deficiencies; and,
- There are few incidences of errors disclosed in the review and no major adverse findings.
- There is ample documentation that the owner/agent periodically updates the affirmative fair housing marketing plan (AFHMP) marketing strategies, to address changing local demographics, including persons with limited English proficiency (LEP), person with a variety of disabilities, and large families.
- The owner/agent also engages in active outreach efforts to community groups and other organizations to attract individuals of available housing opportunities.

Above Average:

The previous version of the chapter contained no guidance regarding what the minimum requirements were to receive this rating. With the issuance of this chapter, HUD has described this rating in detail. To receive an "Above Average" rating an owner should:

MOR Process Changed by Release of Chapter 6, HUD Handbook 4350.1 Cont'd.

- Have established policies and procedures which are successful in carrying out the objectives of HUD housing programs
- Adhere to procedures, with very few exceptions, resulting in compliance with the Regulatory Agreement, subsidy and mortgage contracts, and management certifications
- Be in compliance with HUD's lead-based paint requirements (if applicable);
- Maintain the property is in good condition and there are no observable Exigent, Health & Safety (EH&S) or major deficiencies, but a minimal number of minor deficiencies are observable; and,
- Incidences of errors disclosed in the review are minimal and there are no major adverse findings.
- The HUD approved AFHMP is available on site, project staff have been trained on implementing the plan and it serves as the primary basis for marketing outreach to the various demographics groups that are least likely to apply.
- Records are maintained on the demographics of applicants and tenants along with data that analyzes the effectiveness of the affirmative marketing efforts.

Satisfactory:

Per Chapter 6, a category should be rated Satisfactory IF:

- Owner/agent is successfully carrying out the objectives of HUD programs;
- Policies and procedures have been established but are not always adequate to prevent errors from occurring;
- The owner/agent submitted a lead hazard control plan within the prescribed HUD timeframe and is awaiting HUD approval (if applicable);
- There are some observable Exigent, Health & Safety (EH&S)/major deficiencies but there is evidence that the owner has already corrected many of the deficiencies noted on the last inspection report;
- The owner/agent or their employees have deviated from established policies resulting in deficiencies or there are findings that, with minor adjustments to existing policies or procedures or additional training, the owner/agent should be able to cure the deficiencies. ***In such cases, a satisfactory rating should be given only if the owner/agent is willing to make the necessary adjustments and complete the necessary training.***
- The HUD approved AFHMP is available in the rental office and affirmative marketing to those least likely to apply occurs based on the Plan, including outreach in other languages to individuals who are limited English proficient (LEP).

MOR Process Changed by Release of Chapter 6, HUD Handbook 4350.1 Cont'd.

Below Average:

Performance should be rated Below Average if actions rarely meet statutory, regulatory, and Handbook requirements and:

- Owners/agents policies and procedures are ineffective or inappropriate for the project;
- The policies and procedures do not meet the requirements of the regulatory agreement, management certification, or subsidy contracts;
- Weaknesses in policies and procedures result in frequent failures to comply with published HUD instructions;
- There are repeat major adverse findings;
- There are open findings from prior year's management reviews;
- The owner/agent submitted a lead hazard control plan and has failed to comply with the HUD approved plan (if applicable);
- There are a substantial number of observable Exigent, Health & Safety (EH&S)/major deficiencies and there is evidence that the owner has corrected very few of the deficiencies noted on the last inspection report; and,
- Policies and procedures of the owner/agent or on-site employees would need significant amounts of training to cure the deficiencies.
- The HUD approved AFHMP is available in the rental office but the AFHMP is not utilized as required.

Unsatisfactory:

The following conditions are indicators of an "Unsatisfactory" rating in any one category:

- Owners/agents actions or failure to act have placed the Secretary's interest in jeopardy or frustrated achievement of the Secretary's housing objectives;
- There are major adverse findings in the financial management/procurement processes (*HUD would determine this*);
- There are repeat major adverse findings;
- There are open findings from prior year's management reviews;
- The owner/agent has failed to submit a lead hazard control plan to HUD (if applicable);
- There are many observable Exigent, Health & Safety (EH&S)/major deficiencies
- The owner/agents actions have failed to meet state and local housing code requirements (regardless of REAC score); and,
- The owners/agents policies and procedures are ineffective or lacking to the extent that the owner/agent frequently, and often seriously, fails to comply with HUD's regulations and published instructions.
- There is no HUD approved AFHMP available in the rental office.

MOR Process Changed by Release of Chapter 6, HUD Handbook 4350.1 Cont'd.

Overall Rating Calculation

These HUD defined Performance indicators (or ratings) are assigned to each category and are used to determine and monitor owner/agent compliance with HUD requirements.

Once the reviewer has assigned these performance indicators, each category, in turn, is weighted based on its overall impact at the property. The chart below identifies the weight HUD has given to each category rating on the Management Review:

“The Financial Management/ Procurement” is not rated by PBCA’s and as such is taken out of the final, overall calculation. .”

Weights of Each Category

- A. General Appearance and Security 10%
- B. Follow-up and Monitoring of Project Inspections 10%
- C. Maintenance and Standard Operating Procedures 10%
- D. Financial Management/Procurement 25%**
- E. Leasing and Occupancy 25%
- F. Tenant/Management Relations 10%
- G. General Management Practices 10%

NOTE: “Financial Management/Procurement” is not rated by PBCA’s and as such is taken out of the final, overall calculation.

Each of these contributes to the overall score on the Management and Occupancy Review as follows:

- In determining the overall rating, the reviewing official must first **multiply the performance indicator value by the assigned percentage of the overall rating for each category, rounding up to the nearest whole number.**
- Once all categories have been calculated based on the performance indicator and performance indicator values, **the total is divided by the total percentage points.**

Note: This is done mathematically, so reviewer has no discretion in changing the final number.

The information provided in this article summarizes the complete changes and detailed discussions included in the actual Chapter 6 of 4350.1. Owners and Agents should read the entire chapter carefully to gain a complete understanding of all of the changes included in this newly released guidance. To access a copy of this document, please go to: <http://www.hud.gov/offices/adm/hudclips/handbooks/hsqh/4350.1/index.cfm>.

Highlights of HUD Notice 10-10: Revises Previous Guidance from H09-20

Several important updates to EIV requirements were released with this notice. Owner/Agents should carefully read the entire notice to ensure compliance with its provisions. A complete copy of the notice can be found at: http://portal.hud.gov/portal/page/portal/HUD/program_offices/administration/hudclips/notices/hsg What follows below is a summary of the main points included in the notice. **Some of the key points and changes:**

- Information for one household member cannot be shared with another household member without written consent.
- EIV users must participate in annual EIV training as well as annual EIV security training. HUD's most recent webcast can be used to comply with this requirement. Owners and Agents will need to keep a list of those that attended as well as the date the training was held.
- For a more complete list of what will suffice as Security Training reference section XII F. of HUD notice 10-10
- HUD has updated information regarding tenant notification of possible identity theft.
- HUD has provided much clearer instruction about the required timing for running EIV reports
- Document retention issues have been clarified.
- HUD has provided much clearer instruction about the required timing for running EIV reports
 - **Existing Tenant Report** – must be run prior to Move – In (at time of tenant selection)
 - Must be held with Application in tenant file for tenancy plus 3 years.
 - Must also be held in rejection file with supporting documents for 3 years
 - **Failed Pre-Screening/Failed Verification** – both reports must be run monthly
 - The OA is required to document efforts to resolve any discrepancies identified in these reports.

Highlights of HUD Notice 10-10: Revises Previous Guidance from H09-20 Cont'd

- **Deceased Tenant** – Must be run at least quarterly and as indicated in the property's EIV policies
 - The OA is required to document efforts to resolve any discrepancies identified in this report.
- **New Hires Report** – at least quarterly and as indicated in the property's EIV policies
- **Multiple Occupancy Report** – at least quarterly and as indicated in the property's EIV policies
 - The OA is required to document efforts to resolve any discrepancies identified in this report.
- **Income Report** – New requirement that OA's must run this report within 90 days after the Move-In 50059 is entered into TRACS
- **Income Report/Income Discrepancy Report** - at annual and interim and as indicated in the property's EIV policies
 - The OA is required to document efforts to resolve any discrepancies identified in these reports
- **No Income Report** – As indicated in the property's EIV policies

O/As should refer to the EIV User Manual for Multifamily Housing Program Users for assistance on accessing the reports and for further descriptions of the reports. The manual is posted at: <http://www.hud.gov/offices/hsg/mfh/rhiip/eiv/eivhome.cfm>.

Repayment Agreements

- ALL new repayment agreements as of Notice 10-10 (effective July 1, 2010), must include a clause that says the repayment amount will be renegotiated if the household income increases or decreases by \$200 or more per month
- Specific language that MUST be included in the repayment agreement. See full notice for details.

Highlights of HUD Notice 10-10: Revises Previous Guidance from H09-20 Cont'd

Other Important Guidance

- Resident files may contain information for members of that resident's household only
- Owners should be sure to cut or block out any information that pertains to other tenants since the reports do not run for individual tenants.
- Owner/agents must note, on Failed Pre-Screening reports when residents are exempt from SSN disclosure requirements per Notice 10-08 and 10-10 Owner/agents taking over new properties have 90 days to obtain access to EIV.
- To minimize the risk of exposing a tenant's SSN, O/As **may** remove and destroy, at the time of recertification, copies of verification documentation received from the tenant at the time of disclosure of their SSN once the Identity Verification Status shows "Verified". O/As are encouraged to minimize the number of tenant records that contain documents that display the full nine-digit SSN.
- O/As must not include the full nine-digit SSN for a tenant in emails or other electronic communications.

Master Files Required

Owner/agents must retain a "Master" file that contains the summary report of the reports noted below as well as in the detailed report in the tenant file when discrepancies are identified. The OA is also required to place documentation or notations in the files as indicated in the notice. The Master files must be available at the MOR to provide verification of compliance with Notice 10-10. Master files are required for the following reports:

- New Hires
- Multiple Subsidy Report
- Verification Reports which would include – Failed Pre-screening report and the Failed Verification Report (SSA identity match).
- Deceased Tenant Report

Once the retention period has expired, O/As must dispose of the data in a manner that will prevent any unauthorized access to personal information, e.g., burn, pulverize, shred, etc.

Disclosure to Persons Assisting Tenants with the Recertification Process

Highlights of HUD Notice 10-10: Revises Previous Guidance from H09-20 Cont'd

during the recertification process may have a representative present to assist them in their ability to participate in the recertification process; this includes review and explanation of the written third party income verifications. Disclosure of EIV information to these parties must be employment or income information pertaining only to the tenant who has provided his/her consent. These parties must not have access to EIV information for any other household members.

Residents can provide written consent to view EIV information to assist them in their ability to participate in the recertification process for only the following individuals:

- Service coordinators have access to the data only if they are present at and assisting the resident with the recertification process
- Translators/interpreters
- Individuals assisting an elderly individual or a person with a disability
- Guardians
- Powers of attorney
- Other family members

For a more complete list of who may be authorized to view the income reports Reference XII C. of HUD notice 10-10

To ensure full understanding of the notice and your responsibilities regarding EIV, please go to:

http://portal.hud.gov/portal/page/portal/HUD/program_offices/administration/hudclips/notices/hsg

NTHDC Launches New Owner Agent Portal

North Tampa Housing Development Corporation (NTHDC) along with our partner CGI, is pleased to introduce our new owner / agent portal. This one of a kind tool will allow access to information from relevant databases (both NTHDC and HUD) so that you have the ability to track the processing of your business with NTHDC without the need to use multiple tools. NTHDC performs daily uploads to the portal to assure that the information is available virtually in real time. Owners and Agents will be able to access information regarding their vouchers, MORs, Contract Renewals and Rent Adjustments.

Owner-Agent Portal

You will need to enter the **contract number** associated with your property or properties. (Ex. FL29T123456) in order to successfully register for the portal. The portal is accessible through the NTHDC website www.nthdc.org or at <http://www.cgihousing.com/page.aspx?p=65>

Understanding TRACS Error Messages

To understand TRACS error messages, first Owner/Agents must understand how the TRACS system works toward paying their monthly vouchers. Owner/Agents send their MAT 30 and updated certifications to their PBCA. Once NTHDC forwards a voucher/certification to TRACS, TRACS messages are then sent back to our TRACS mailbox which in turn are forwarded to Owner/Agents' TRACS mailboxes. Owner/Agents must download these messages from their software system (contact your software vendor for instructions). We recommend downloading error messages at least weekly to ensure all issues are resolved.

Once Owner/Agents have received the messages, they must address them. Not all TRACS messages carry the same weight or importance. These messages are divided into 3 types:

- Informational/Confirmation of files received
- Discrepancy Error Messages
- Fatal Error Messages

TYPE 1: Informational/Confirmation of Files Received: These messages are sent from TRACS confirming the receipt of a file. They contain a brief explanation as to what file was received. Usually the CA or O/A will not have to follow up on these messages. However, it's imperative these messages are read completely to make that determination. TRACS does not send informational or "confirmations" messages for full certifications (Annual Recertifications, Interim Recertifications, Initial Certifications or Move In).

Sample messages:

Voucher: VSP10: Voucher has been accepted for payment. Voucher ID 1234567890.

Certification: GA002: MAT70 Gross Rent Change Successfully processed.

TYPE 2: Discrepancy Error Messages: These error messages are sent from TRACS confirming the certification has been received. However, these certifications may require additional items to be corrected or at the very least reviewed for accuracy. These messages have **Action Required** codes listed in a column that indicates the correction submission procedures and designate those messages that are informational.

ACTION CODES:

- 01** - Submit correction within 45 days.
- 02** - Submit correction on next submission and/or certification.
- 03** - Informational message; may or may not require correction.
- 04** - Follow up required (For Field Office Use Only).

Once Owner/Agents receive a Discrepancy error message they should review the Action required code to determine a course of action. Research these errors using the MAT User Guide located at <http://www.hud.gov/offices/hsg/mfh/trx/trxmatg.cfm> Appendix D. This section of the MAT User Guide also provides a **Recommended Solution** area with suggestions on how to resolve these discrepancies.

TRACS Code	Description	Recommended Solution	Action Required
CE031	Income exception code not submitted for household receiving Section 8 after 7/1/84 Income exception code submitted for a unit not receiving 84 assistance	Verify income exception code and submit appropriate values, if applicable Submit a valid income exception code (VL, CV, ET, EDT, EIT, AA, EAT, or EP)	02
CE032	Attempted to change last name, first name and date of birth of a member	Verify the current and previously reported names and date of birth for member	01
CE033	An income exception code was entered for post-8/1/84 Section 8 recipient	The certification indicates that the family began receiving assistance on or after 8/1/1984. An income exemption code was also submitted. These two conditions appear inconsistent.	03
CE034	Lower income limit reported as zero at annual or interim recertification	Lower income limit must be > zero at annual or interim recertification	02
CE035	Current Assets Amount increased by > 20% + >\$500 from previous certification.	Compare the assets listed on the current and previous certification.	04

Understanding TRACS Error Messages Cont'd.

TYPE 3: Fatal Error Messages: These error messages indicate that a certification has failed the TRACS edit check procedures. NTHDC's software is designed to fail these certifications during the vouchering process. However, there are cases where we may accept a certification that will still fail TRACS. Certifications that fail TRACS will have an "F" in front of the number code; for example **F0012**. These failed certifications need to be **addressed immediately as they can have an impact on TRACS compliance and EIV reports**.

Review the TRACS error code to determine your course of action. These errors need to be researched using the MAT User Guide located at <http://www.hud.gov/offices/hsg/mfh/trx/trxmatg.cfm> Appendix E. This section of the MAT User Guide also provides a **Recommended Solution** area with suggestions on how to resolve these errors.

Any certifications that may need to be corrected will have to be transmitted through iMAX to NTHDC and we will then forward the certification to TRACS (as long as it passes our edit checks). TRACS will then check that certification for validity and will either post the certification or fail it and the process will repeat itself.

Any questions related to your TRACS error messages can be sent to your Central Contract Specialist.

Part 1: TRACS Tenant System Fatal Error Messages and Codes

Code	Description	Recommended Solution
F0012	The TRACS generated "T" id was not found for previous certified household MAT 50059 certification record number.	A change in household id must be processed against an existing certification. Verify the previous head of household identification and resubmit the certification.
F0013	Current effective date is missing.	Re-submit the transaction with the effective date.
F0014	Current head last name, or first name, or birth date is missing.	Complete identification needed for family members. Confirm head of household data and re-submit the certification.
F0015	Random number error in validate. Number of trials to creating a unique TRACS id exceeded 999. MAT59959 certification record number: _____	TRACS' algorithm to generate a unique "T" id failed. Re-submit the certification using SSNs for the members.
F0016	Owner signed date is greater than current date.	Re-submit the certification with a valid owner signed date
F0021	HUD-owned not currently being processed	HUD-Owned properties are handled by the Property Management System (PMS). If the property is not HUD-Owned, resubmit the certification with the proper subsidy type.
F0022	Subsidy type is invalid	Resubmit the certification with a valid subsidy type.
F0023	Project number is required	A project number is required for Section 236, BMIR, Rent Supplement, RAP, 202/162 PAC, 202 PRAC and 811 PRAC subsidy types.
F0024	Invalid Action Processed Code – valid codes are 1 and spaces.	Resubmit the MAT10 transaction with a valid Action Processed Code.
F0025	Contract number required for projects with HAP, PAC, or PRAC contracts	Section 8, 202/162 PAC, 202 PRAC, and 811 PRAC subsidy types require a contract number.
F0027	Record number is: _____	N/A

TRACS/ iMAX Rules of Behavior

The Deadline for accepting the TRACS Rules of Behavior and completion of the Security Training has been extended to October 1, 2010. TRACS users must accept the TRACS Rules of Behavior through the Integrated Multi-family Access Exchange System (iMAX) or TRACS Menu Link via HUD's Secure Systems (WASS). Any TRACS user that submits tenant and voucher data to HUD via vendor software and/or iMAX web services will not be able to transmit data after October 1, 2010 if they have not previously accepted the ROB and completed the required Security Training.

If you have any questions regarding the Rules of behavior Requirements please email MFTRACSSECURITY@HUD.GOV.

To accept the Rules of Behavior:

1. Access HUD's Secure Systems

<http://www.hud.gov/offices/reac/online/reasyst.cfm>

1. Log in using your own user name (MID) and password
2. Click on the integrated Multi-family Access Exchange System (iMAX) link **or** the TRACS link (both of these systems share the same ROB so it only has to be accepted once per year)

The Rules of Behavior (ROB) page will appear automatically.

If for some reason the ROB does not appear, Manually print the ROB using the following web link: <http://www.hud.gov/offices/hsg/mfh/rhiip/eiv/tracseivaccessinternal.pdf>

To complete online TRACS Security Awareness training:

1. Go to <http://iase.disa.mil/eta/index.html#onlinetraining>
2. Click on the *Federal ISS Awareness* icon.
3. Once you start the course, you should complete it in its entirety, as the system does not authenticate users and will not save your progress.
4. Upon completion of the course, print the certificate confirming you completed the course.
5. Sign and file the certificate. (HUD may ask for this document)

REAC Announces New Bed Bug Infestation Protocol

Effective September 13, 2010 all inspectors are required to report the presence or existence of bed bugs at any property being inspected. Further, if the management agent states that a unit is infested with bed bugs, the inspector will not enter that unit.

The presence and/or treatment of bed bugs will not be scored in the UPCS inspection. This data, however, is being collected to ensure that HUD program participants maintain HUD properties in decent, safe and sanitary condition, and in good repair.

To read the protocol in its entirety, please visit: <http://www.hud.gov/offices/reac/products/pass/PDFs/bedbugs-notice.pdf>

Member Profile: Jacqueline Reynolds

Jacqueline Reynolds is a Quality Assurance Specialist in the Tampa, FL office and has been with NTHDC for approximately six years. Jacqueline conducts performance and quality control activities to ensure the accurate and timely completion of core contract administration activities. Jacqueline has a Bachelor's Degree in Social Work. Her Social Work skills are often put to use when interacting with residents and owner/agents.

Pictured Above: Jacqueline Reynolds, Quality Assurance

Jacqueline is married with two children. She also has a nephew named Michael Choice, who was recently drafted by the Oakland A's. Jacqueline is active in the community and volunteers her services as needed. She also has a restaurant that is owned and operated by her family. The restaurant is named Al's Finger Licking Good Barbeque. It is indeed Finger licking good too.

What's New on HUDClips?

Notice	Issued	Subject
H 10-17	23-Aug-10	Revised Procedures for Requesting Inspections from the Real Estate Assessment Center
H 10-15	11-Aug-10	Processing Instructions for Refinancing Cooperative Housing Projects Under Section 207 pursuant to Section 223(f).
H 10-14	27-Jul-10	Policy and Procedure for Prepayment and Refinancing of Section 202 Projects Funded prior to 1975
H 10-12	9-Jul-10	Delegation of Authority to Approve Certain Compliance, Disposition and Enforcement (CDE) Plans
H 10-11	6-Jul-10	HUD Multifamily Risk Mitigation
H 10-10	1-Jul-10	Enterprise Income Verification (EIV) System
H 10-09	25-Jun-10	Expansion of Real Estate Assessment Center Authority to Approve or Deny Requests to Defer Partial Year Submissions of Annual Financial Statements
H 10-21	16-Sept-10	Optional Smoke-Free Housing Policy Implementation Notice

HUD Issues New Optional Smoke Free Housing Policy

On September 15, 2010, HUD issued Notice H10-21 which detailed the Optional Smoke Free Housing Policy Implementation. The purpose of the notice is to encourage O/As to implement smoke-free housing policies in some or all areas of their respective properties.

At this time, HUD is not mandating that O/As make their properties smoke-free, however this notice highly encourages owners to consider it, as there are many health benefits to a smoke-free environment. O/As choosing to establish smoke-free housing policies may establish policies that allow smoking in individual units but prohibits smoking in all common areas or policies to create a totally smoke-free property.

If an O/A chooses to establish such policies, they **must**:

- Be in accordance with all state and local laws.
- Address smoking in tenant's unit, common areas, playground areas, areas near any exterior window or door, and areas outside a tenant's unit.
- Designate specific smoking areas and identify these areas with clear signage unless the O/A establishes a totally smoke-free policy.

If an O/A chooses to establish such policies, they **must not**:

- Deny Occupancy to any individual who smokes .
- Ask the applicant or tenant if any member of their household smokes.
- Maintain smoking and nonsmoking specific waiting lists for the property.
- Require existing tenants, as of 9/15/2010, to move– out of the property or transfer to another unit.

O/As have the option to grandfather current tenants. O/As also have the option to establish smoke-free wings, buildings, floors and/or units at their property, however these policies must be clearly defined in their House Rules.

O/As who have already established smoke free policies may continue to enforce their current policies as long as they do not violate the guidance provided in HUD notice 10-21.

If an Owner/Agent wished to implement smoke-free policies, they must update their House Rules and notify existing tenants who have completed their initial lease term 30 days prior to implementation of such policies. For tenants who have not yet completed their initial lease term, the owner must provide the change in the House Rules to the tenant with a 60 day notice, prior to the end of their lease term.

Penalties for violating the House Rules may be considered material noncompliance with the lease and may result in termination of tenancy.
